WELCOME

Dear Attendees,

Welcome to the 2nd edition of **Critical Minerals & Energy Transition Conference and Exhibition**! We are honoured that you can join us here at Australia's international renewable energy, critical minerals, green steel, hydrogen & technologies event.

Australia is abundant in minerals, from precious metals like gold, to coal and critical minerals such as rare earths, cobalt and lithium. In particular, Australia plays an important role in supplying the critical minerals needed for diverse, resilient and sustainable global supply chains. These supply chains are crucial to the industries and technologies that support the global transition to net zero as well as domestic and regional energy security.

Here in NSW, the government recently announced the introduction of new legislation designed to accelerate the delivery of critical solar, wind, battery energy storage, and network projects to support the state's transition from coal-fired power to renewable energy. With renewable energy already providing about 36% of NSW's annual electricity supply, the proposed law is designed to build on this progress, by accelerating the infrastructure needed to generate, store and move clean energy across the state.

At Critical Minerals & Energy Transition Conference and Exhibition, we seek to share knowledge, facilitate important conversations and help regional and global mining and energy industry stakeholders stay abreast of the latest trends and developments. We have representatives from diverse industries, ranging from government, finance, mining, energy and academia, who are all committed towards achieving a common goal of a net zero economy. We hope you can build on the diversity of attendees to make excellent connections and forge new business opportunities.

This event in Sydney is part of our global Energy Transition, Critical Minerals and Mining Investment Conference Series. To date, this Conference Series have been held in Singapore, Japan, India, Australia, UK, United Arab Emirates, Canada and USA. We also organise MiningTech Conferences in Vancouver, Canada and Sao Paulo, Brazil. Globally, our events cover Africa, Australia, Asia, Latin and North America and Europe. To find out more, you can speak to us or browse at our website www.spire-events.com.

In closing, we hope you will have a great Critical Minerals & Energy Transition Conference and Exhibition experience ahead.

Yours sincerely,
Daniel Radziszewski

SILVER SPONSOR

Anson Resources Limited (ASX:ASN) is a critical minerals company focused on developing the resources needed to support the global clean energy transition.

Through its U.S.-based subsidiary A1 Lithium, Anson is advancing a Green River Lithium Project in the Paradox Basin, Utah, to produce 10,000 tpa of high-purity, battery-grade lithium carbonate using innovative direct lithium extraction (DLE) technologies. In addition to lithium, Anson holds a portfolio of uranium, vanadium and critical metals exploration assets in Utah and Western Australia, including the Bull Project located adjacent to Chalice Mining Limited's Julimar discovery.

OUR GLOBAL OUTREACH

Critical Minerals Japan
Conference & Exhibition
(9 - 10 September 2026)
Tokyo, Japan

Mining & Critical Minerals Middle East
Conference & Expo
(16 - 17 September 2026)
Dubai, United Arab Emirates

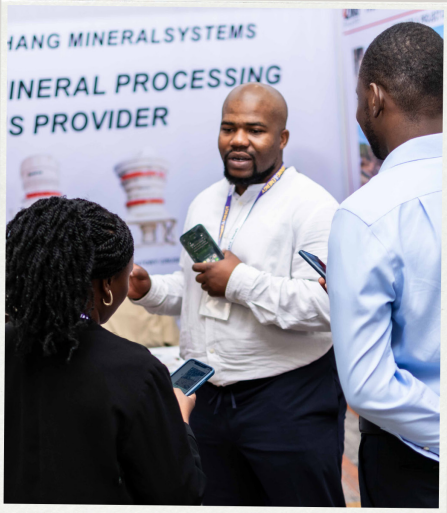
MiningTech South America
Conference & Exhibition
(1 - 2 October 2026)
São Paulo, Brazil

Mining & Critical Minerals Europe
Conference & Exhibition
(20 - 21 October 2026)
London, United Kingdom

SNAPSHOT OF OUR SELECTED UPCOMING EVENTS

Scan here for our full 2026/2027 events calendar

MiningTech North America
Conference & Expo
(9 - 10 November 2026)
Vancouver, BC, Canada



Botswana Mining & Energy (BME)
Conference & Expo
(22 - 23 March 2027)
Gaborone, Botswana

Critical Minerals North America
Conference & Exhibition
(19 - 20 April 2027)
New York City, NY, USA

Mining Asia
Conference & Expo
(23 - 24 June 2027)
Singapore
